RE: *Petition for Declaratory Order by Orangeburg County Solar Project, LLC and Orangeburg South Solar Project, LLC, Docket 2021-114-E*

Dear Ms. Boyd:

On March 29, 2021, the Petitioners, *Orangeburg County Solar Project, LLC and Orangeburg South Solar Project, LLC, both Wholly Owned Subsidiaries of Savion, LLC*, initiated this matter by filing a Petition for Declaratory Order. The Petition seeks an Order from the Commission finding that:

1. The Orangeburg County Solar Project and Orangeburg South Solar Project (collectively “the Projects”) do not meet the definition of a major utility facility, as defined in S.C. Code §58-33-20(a), because each project will operate at a capacity less than 75 MW;
2. The Projects do not meet the definition of a major utility facility, as defined in S.C. Code §58-33-20(b), merely because they will share a single 200-foot 230kV generation tie (gen-tie) line; and
3. Because the Projects do not meet the definition of a major utility facility, as defined in S.C. Code §58-33-20, the Petitioners are not required to obtain a Certificate of Environmental Compatibility pursuant to S.C. Code §58-33-10, *et seq.*

The parties to the action are Petitioners, the South Carolina Office of Regulatory Staff (“ORS”) and Dominion Energy South Carolina, Inc. (“DESC”).

In the months since the initial filing, Petitioners have conferred with the other parties and have provided a significant amount of information in response to three sets of Request for Production of Books, Records, and Other Information propounded by ORS. Via letter dated July 21, 2021, ORS informed the Commission it had completed review of the Petition.

Accordingly, I write now on behalf of Petitioners to respectfully update the Commission as to these events and to request the Petition be considered by the Commission.
